

 **REMARK**

PACKAGING CATALOGUE

Shaping Beauty, Inspiring Confidence, Empowering Lives.

Company Overview

Remark HB Limited is a new-generation cosmetics, skincare, and personal care company dedicated to redefining beauty and wellness from Bangladesh to the world. With a vision to empower healthier lifestyles and elevate confidence, we bring together global expertise, cutting-edge research, and world-class manufacturing standards.

What We Offer

From skincare and haircare to home and personal hygiene solutions, our diverse product portfolio is designed to meet everyday needs with safe, effective, and affordable choices. Our flagship retail brand, Harlan Store, makes our products easily accessible to customers, while our expanding global presence ensures we reach beauty enthusiasts across borders.

Quality & Standards

Every product is developed under strict international guidelines. We are GMP-certified and follow rigorous ISO-based quality management systems. Our partnership with the Bangladesh Reference Institute for Chemical Measurements (BRiCM) strengthens our R&D capabilities, ensuring every product meets the highest standards of safety, performance, and sustainability.

Sustainability & Recognition

At Remark HB Limited, we believe beauty should never come at the cost of the environment. Our factory has been recognized with the Green Factory Award 2025, making us the first cosmetics company in Bangladesh to achieve this honor. This award reflects our commitment to safe workplaces, eco-friendly operations, and sustainable growth.

Global Ambition

With export orders already reaching international markets, Remark HB Limited is proudly showcasing Bangladeshi excellence abroad. Our participation in global exhibitions such as Dubai Derma and Cosmoprof highlights our ambition to compete on the world stage.

Our Promise

We promise our clients and customers trust, innovation, and care in every product we deliver. Whether for local households or global distributors, Remark HB Limited stands as a reliable partner dedicated to excellence, sustainability, and long-term growth.

Packaging R&D Team

The Packaging R&D and Mold Team at Remark HB Ltd is responsible for transforming concepts into production-ready packaging solutions. The team specializes in structural design, material optimization, prototyping, and precision mold development to ensure functionality, durability, and cost efficiency. By integrating research, engineering, and manufacturing expertise, the team delivers innovative, scalable packaging that meets quality standards, regulatory requirements, and brand objectives, while supporting efficient mass production.

ARO Quantum Max FaroArm

It is a high-precision, portable coordinate measuring machine (CMM). We use it for detailed 3D inspection and reverse engineering.

BambuLab X1 Carbon

A high-end 3D printer based on FDM printing technology, it creates precise printed samples. The functionality and aesthetics of a product are checked using these printed samples.

Phrozen Sonic Mighty 8K Resin 3D Printer

This resin printer uses SLA 3D printing technology. It precisely prints smaller models and detailed designs with precision.

Vacuum Testing Machine

This device is used to verify the sealing quality of our products under controlled negative pressure.

Dimensions	119.25*12.2*12.2 mm
Applicator	Wand
Aesthetic	Screen Printing, Color Masterbatch
Features	This packaging combines a round body with a coordinating round-tapered cap, offering a premium pink appearance and making it ideal for eyeliner.

3.5 ml Eyeliner (Square Shape)

Volume	3.5 ml
Material	ABS, PP, RCP, LDPE
Dimensions	115*12.5*12.5 mm
Applicator	Wand
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	A small-scale SKU featuring a secure locking mechanism for a premium feel and a metallized body that enhances the overall packaging aesthetics. Specially designed for eyeliner, this packaging combines elegance with functional precision.

Code: Rhbl_el04

10-12g Loose Powder

Code: Rhbl_lp01

Volume/Weight	10-12g
Material	ABS, SAN, PP
Dimensions	45*79.40*79.40 mm
Applicator	Puff
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	The glass-like transparent SAN body and attractive cap make this packaging more aesthetically pleasing. This packaging item can be used for various types of loose powder.

50 ml Cream Jar

Volume	50 ml
Material	ABS, SAN, PP
Dimensions	70*70*65 mm
Applicator	Puff
Aesthetic	Screen Print, Color Masterbatch
Features	This premium cream jar assembly is engineered with six precisely fitted components, designed for exceptional durability, accuracy, and user convenience. Each part is manufactured with tight tolerances, ensuring a secure fit and smooth operation through threaded, jam-fitted mechanisms.

Code: Rhbl_cj01

50 ml Cream Jar

Code: Rhbl_cj02

Volume	50 ml
Material	CP/HP
Dimensions	65.45*62.55*62.55 mm
Applicator	N/A
Aesthetic	Metallization, Screen Printing, Color Masterbatch, Frosted Finish
Features	This cream jar product consists of five components. All components are manufactured using high-quality injection molding to ensure precision, durability, and consistency.

50 ml Common Cream Jar

Volume	50 ml
Material	ABS, ACRYLIC, SAN, PP
Dimensions	71.69*71.03*71.03 mm
Applicator	N/A
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	High-quality cream jar packaging. Contains six tightly fitted parts with very low tolerance, including threads, jam fitting, and an annular lock.

Code: Rhbl_cj03

30 ml Nail Polish Remover

Volume	30 ml
Material	HDPE, PP
Dimensions	94.7*32.5*32.3 mm
Applicator	N/A
Aesthetic	Screen Printing, Color Masterbatch
Features	The container's material provides exceptional chemical resistance against strong solvents like acetone and ethyl acetate, preventing degradation, swelling, or leaching. It features a nozzle for controlled application. The nozzle and cap mechanism creates an airtight seal when closed, preventing the evaporation of volatile solvents and maintaining product volume and concentration over time.

Code: Rhbl_npr01

30 ml Skin Tint

Volume	30 ml
Material	ABS, RCP, PP
Dimensions	79.5*47.5*23.5 mm
Applicator	NOZZLE
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	Two-part cap with threaded snap-lock for an airtight, tactile closure. Precision micro-orifice nozzle enables controlled, drop-by-drop dispensing. LDPE body calibrated for consistent single-drop dosing.

Code: Rhbl_st01

5 ml Lip Mask Pot Concealer

Code: Rhbl_lm01

Volume	5 ml
Material	ABS
Dimensions	39.65*28.2*28.2 mm
Applicator	N/A
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	Two-part plastic packaging, attractive for its aesthetic shape. Metallization on the cap has added a new dimension to the beauty of this packaging. Lip mask, blush, lip gloss, and other color cosmetics can be filled in this packaging item.

25D Multi Layer PBL Lami Tube

Volume	15-25 ml
Material	Oval multi-layer PBL lami tube, LDPE- Nozzle insert, ABS- Cap
Dimensions	25mm Diameter
Applicator	Nozzle
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	Two-part multi-layer PBL laminated tube for durability and precise product dispensing. LDPE nozzle insert ensures controlled, drop-by-drop application. ABS cap features a diamond-cut metallized design, delivering a premium and aesthetic appearance.

Code: Rhbl_tb01

Code: Rhbl_tb02

35D Oval Lami Tube

Volume	25ml/30 ml
Material	Oval multi-layer PBL lami tube, LDPE, PP
Dimensions	35mm Diameter
Applicator	Nozzle
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	High-quality oval PBL laminate ensures durability and product safety. LDPE nozzle allows precise dispensing, while the metallized PP cap adds a premium, reflective finish. Optional screen printing and color customization enhance design and functionality.

19D Co-Extruded Tube

Volume/Weight	10g
Material	5-layer co-extruded tube, ABS-Cap, PP- Lip insert
Dimensions	19mm Diameter
Applicator	Nozzle
Aesthetic	Metallization, Screen Printing, Color Masterbatch
Features	5-layer co-extruded tube with a central EVOH barrier that keeps the product safe from oxygen and moisture, maintaining freshness and stability. The special lip insert ensures precise, controlled dispensing for a clean, reliable application every time.

Code: Rhbl_tb03

Code: Rhbl_tb04
